## La Margarita

### La Margarita

Emperors and kings were basking in the splendor of the horses ballet. Here the High School of Classical Dressage, the splendor of baroque music and the drama of opera build a perfect combination. To revive this form of art, «La Margarita», tells a story about the legendary hero Hercules and the seductive golden apples of the Hesperides, inspired by the historical performance that Emperor Leopold I made in 1667 for his wedding in Vienna.
