

# SYNOPSIS

## The Roots of Violence

### Wie Gewalt entsteht

Violence came about as a result of a settled way of life. Archaeological finds show that hunters and gatherers lived relatively peacefully, preferring to avoid one another rather than smash each other's skulls if a conflict arose. It was only with the onset of farming and the first villages that serious violence developed among human beings.

Exclusion engenders violence. This separation between "us" and "others" has been and still is misused by politicians. The history of nationalism shows this to a terrifying extent - most recently in Bosnia, when 8.400 people were murdered. This documentary risks a foray into important aspects of research into violence throughout the history of mankind.

**Year:** 2013

**Run-Time:** 1 x 52 min.

**Directed by** Kurt Langbein

**Written by** Kurt Langbein

**Produced by** Langbein & Partner Media for ORF

Available worldwide

**Languages:** German (ORIGINAL) , English (VOICE-OVER)

**Format:** 16:9

**HD**
