

SYNOPSIS

The Art of Healing

Kunst des Heilens

Traditional Chinese medicine and Ayurveda are booming. But the traditional European medicine that above all was taught and passed on in the ancient monasteries is also now being rediscovered. The holistic view of man included, alongside his spirituality, also his corporeality. Hildegard of Bingen, Paracelsus and Pastor Sebastian Kneipp are outstanding figures in this tradition. Abbeys and religious houses are today taking up the ancient art of healing in their treatment programmes.

Year: 2016
