

SYNOPSIS

Suburbia - Women on the Edge

Die Vorstadtweiber

Five women, whose biggest challenge so far has been surviving their daily hour-long luxury shopping tours burning up their husband's credit cards, are taken by complete surprise when suddenly one of them is divorced by her husband and thrown out of the house.

Instantly the remaining BFFs realize that the same could happen to them - and their survival instinct awakens. How convenient that their husbands - all businessmen with a quite strong inclination towards corruption - are planning a big deal using their ignorant wives. What the men don't know is that their wives are setting out to turn the tables. Never would they suspect having unleashed a bunch of beautiful beasts...
