Treasure Hunt - Searching for Fenn's Legacy

Treasure Hunt - Auf der Suche nach Fenns Vermächtnis

Forrest Fenn is very, very rich. But when he found out he had cancer, he decided to spark the sense of adventure in people across the world. He stuffed a chest with many valuable treasures and buried it in the Rocky Mountains. He gave away nine clues in a poem he published and five more in interviews, but the chest is yet to be found. If it's still out there, why wouldn't two Austrian kids stand a chance?
