## Scene of the Crime - True Lies

### Tatort - Wahre Lügen

Two Viennese special investigators, Moritz Eisner and Bibi Fellner, are called to a puzzling murder case in the Salzkammergut lake district. The body of a woman has been found in Lake Hallstatt, shot dead and submerged in a car. It emerges that the dead woman is a German journalist who had been reported missing, and had recently been working on a story about illegal arms deals. Eisner's and Fellner's investigations take them to the dead editor's desperate life partner, her informant, her editor in chief and a mysterious death that even decades later has still not been cleared up. The Federal Ministry of Homeland Security, which clearly has no interest in reopening this old and politically inconvenient case, quickly gets involved, putting pressure on the two police inspectors and their boss, Ernst Rauter. But undaunted, Eisner and Fellner continue to investigate, rapidly discovering that the historical crime and the murder of the journalist must in fact have something to do with each other.
