## Karajan - Dvorak: Symphonies No. 8/9

### Karajan - Dvorak: Symphonien Nr. 8/9

Herbert von Karajan's Dvorak-interpretations with the Vienna Philharmonic Orchestra, most notably symphonies No. 8 and 9, are legendary. Symphony No. 9 «From the New World» stands very much in the tradition of Beethoven, but is completely riddled with a slavic tune and a melancholy way that Karajan and the Viennese implied so inimitably. Dvorak's 8th and 9th symphonies captured for eternity - recorded at the Musikverein.
