

SYNOPSIS

Philharmonic Dynasties - The Big Family of the Vienna Philharmonic Orchestra

Tönende Dynastien - Die grosse Familie der Wiener Philharmoniker

Is the most famous symphony orchestra in the world in reality a family business? After taking a closer look, one might get that impression. The intertwining, genealogic history of the Vienna Philharmonic's members dates back to the orchestra's very beginnings. The chair on which clarinetist Peter Schmidl now sits was once occupied by his father, and his father before him. Similarly, solo-cellist Franz Bartolomey can also look back on an extensive family tradition. The Vienna Philharmonic is truly unique in the world in building on the family histories of its members to create such a rich artistic legacy.

Year: 2003

Run-Time: 1 x 51 min.
