## Rio de Janeiro - Peace to the Favelas

### Rio de Janeiro - Friede den Favelas

Brazil has a super-dynamic economy and Rio de Janeiro is one of the most beautiful and pulsating cities on earth. Yet in the vast poor quarters of the city, drug-related crime and naked violence have long been rife. Suppressing this violence is currently the city's greatest challenge. There are over a hundred slums that are ruled by armed drugs gangs and which have no infrastructure. For too long the state has ignored the needs of the poor. Together with special units of the military police, this documentary is about the visit to the Morro do Alemão favela, which until recently was known as the most dangerous part of Rio de Janeiro.
