

SYNOPSIS

Swipe Right - Love and Sex in the Internet Age

Liken, daten, löschen - Liebe und Sex in Zeiten des Internets

Quick, easy and efficient: increasing numbers of people are looking for a partner via their smartphone. Anyone who wants a date can find someone anywhere at any time and - if they're not the right person - get rid of them too. This documentary shows how the world of online dating works, examines the background and origins of today's online dating culture and investigates how love has changed in the age of the internet.
