

SYNOPSIS

Exorcists

Exorzisten

Is the evil an ethical, a religious definition? Or is the evil - the devil, as many churches claim - a person of real existence? What makes exorcism «work»? Should these cases be dealt with by doctors, or is there more to it? Based on personal stories and international expertise, this documentary on exorcists sheds light on a number of its magical rituals.

Year: 2005

Run-Time: 1 x 51 min.

Directed by Peter Beringer
