

SYNOPSIS

St. Stephen's Cathedral - A Heavenly Household

Der Stephansdom - Ein himmlischer Haushalt

Vienna's St. Stephen's Cathedral is not only the city's landmark and a national treasure, but also one gigantic household. Altarcloths need to be changed every day, pillars dusted and flowers brought from the market. Damaged sculptures are restored in the cathedral works, and chairs re-covered in the repository. Who are the people who work in the cathedral? What effect does the atmosphere have on the way they feel about their work? Everyday stories in a cathedral with a human side where there's often plenty of fun to be had - thanks to many fascinating household assistants, who could not be more different from one another and who make just as much of a contribution to its unmistakable atmosphere as its inanimate occupants.
