

SYNOPSIS

My Tokyo

Mein Tokio

The Japanese capital of Tokyo is one of East Asia's most alluring tourist destinations: the city is known for being an artistic centre and entertainment hub, has captivating architecture and is the cleanest and safest metropolitan area in this part of the world. But many people see this thriving metropolis as a testbed for the problems that Europe will soon have to deal with: an ageing society, rigid structures, high levels of burnout, and increasing loneliness in the anonymity of the big city.

Year: 2018
