## The Mystery of the Mother of God

### Da war doch noch was! - Wenn die Muttergottes erscheint

Every year, the places where Mary appears - Lourdes and Medjugorje - draw millions of pilgrims, fascinated by the mysterious phenomenon in these places of deep piety. The official church seems to be divided when it comes to the phenomenon of Marian apparitions. Whilst the apparitions in Lourdes are officially recognised, there are doubts as to the authenticity of those in Medjugorje. Against which criteria are such apparitions judged? What is the interrelationship between Marian miracles and political, economic and ideological conditions? And what is the fascination that causes believers to repeatedly visit such places?
