## Sweet Temptation

### Die süße Versuchung

Chocolate, truffles or even pralines - temptation takes many forms and its specialities often turn our heads. This film is dedicated to the production of chocolate, from the harvesting of cocoa beans to the making by hand, while also looking into its fascinating history. Prize winning master chocolatiers tell of their efforts to give the sweet temptation a personal touch through their own creations and constant experiments. Whether it's chocolate refined with essential oils from France or produced with incense (which is a great hit in the Vatican) - every taste is well catered for.
