## Winter Paradise Weissensee

### Winterparadies Weissensee

Weissensee Lake in Carinthia is amazing at any time of the year. But especially in winter, when it freezes over, people flock there to engage in winter sports. Ice skating on Austria's highest swimming lake has a long tradition. Even in mild winters, barely any other lake in the country has an ice layer as thick and reliable as here. Heimat Österreich shows this natural paradise and how it unites people from the region and all over the world.
