

SYNOPSIS

Young. Hip. Jewish.

Jung. Hip. Jüdisch

What does Jewish mean? A pedigree, a culture, an attitude to life? «Young. Hip. Jewish.» traces the worlds in which the «third generation» lives, between orthodox tradition and liberal assimilation. Widely varying concepts of life combine to form a large blueprint of diversity. If you want to move forward in life, it is good to be aware of your roots - this is more or less exactly how all of the young protagonists in the film describe their adherence to their Jewish identity. A self-assured Diaspora wants to live in the here and now, as one minority among others. «Generation normal» is a new challenge. It has no patience with hiding behind rituals of remembrance.
