

# SYNOPSIS

## KwaZulu Natal - Take a Walk on the Wild Side

### KwaZulu Natal - Take a Walk on the Wild Side

Almost all of the large tribes in South Africa offer traditional culture - dances, songs, clothing, religion etc. - in specially built cultural villages. These artificial villages are based on historical models, but are only inhabited when a tourist bus is due. One of the entire continent's most ambitious environmental and wild animal protection projects came about in recent years in the coastal region of KwaZulu Natal: the iSimangaliso Wetland Park, which was declared South Africa's first world cultural heritage site by UNESCO in 1999. Through interviews with a wide variety of people including barkeepers, managers and the traditional healer, this documentary shows how tourists are drawn by an ecological «walk on the wild side».

**Year:** 2012

**Run-Time:** 1 x 45 min.

**Directed by** Manuela and Werner Zips
