

SYNOPSIS

Wild Mongolia

Die Magie der Mongolei

One of the most stunning, untouched landscapes on earth is found in the heartland of Asia: stretching from the impenetrable forests of Siberia in the North to the Chinese wall in the South. And here, a huge variety of rare animal species are found under its deep blue sky. The rocky territory in the mountains of the North is shared by powerful Argali sheep and ibex. The Southwest of Mongolia is home to the Mongolian Wild Horse, the ancestor of our domestic horse. In the interior of the Gobi desert, wild camels wander from oasis to oasis. The East of the country holds the biggest area of grassland in Asia. In the early springtime, it hosts huge numbers of Mongolian gazelles and wolves. «Wild Mongolia» is a unique revelation of untouched nature and amazing landscapes.
