

SYNOPSIS

Sky Hunters - The World of the Dragonfly

Libellen - Die Himmelsjäger

This film presents dragonflies as they have never been seen before. Fascinating macro cinematography takes us into the world of insects that have lived on earth since the age of the dinosaurs. Spectacular super slow-motion and elaborate computer animation reveal for the first time how dragonflies capture their prey at lightning speed while flying.

Awards: International Film Festival of the Wildlife and the Environment (FIFALE) 2011: Silver Stork
